

ADVANCED COMBAT HELMET

SM-ACH helmet is based on the design of new generation of advanced combat helmet.

SM-ACH helmet is based on the design of new generation of advanced combat helmet. The **ACH** is typically crafted out of an advanced version of Kevlar and offers protection from handgun shots also. Also, it dismisses the chinstrap, sweatband, and cord suspension system of the PASGT and instead includes a four-point retention system and a pad system. These systems not only make the ACH helmet more comfortable but they also offer better defense from impacts.

Size			Color			Weight	Protection	Shape
small	medium	large	Black	Green	Yellow	1.20 Kg to 1.65 Kg	NIJ Level IIIA	ACH

KEY ATTRIBUTES

- Made of advanced Aramid/PE composite materials.
- Ideal mass distribution minimizes lag during head movement.
- Designed for better ventilation and better ballistic protection.
- Specialized polyurethane paint coatings for improved aesthetics.
- Advanced Anti-trauma system available for much reduced trauma levels.
- Suitable for use in extreme environments.
- Add-on coatings available for sea/marine use, IR protection etc.

PROTECTION LEVEL

- NIJ Level IIIA (NIJ 0106.01)
- V50 400 – 700m/s (STANAG 2920)
- 9mm /.357 MAG/ 44 MAG

Optional Accessories

Anti-Riot Visor, NVG Shroud, Picatinny Adapter, Side Rail, Strip, Velcro
